## \$12,000,000 FOR CHURCH VOTED

Budget Approved by Presbyterian Assembly

## WINONA LAKE MEETING ENDS

Des Moines is Chosen As Next Convention City

WINONA Lake, Ind. — (By Associated Press) — Commissioners of the 133rd general assembly of the Presbyterian church in the U. S. A., began a general exodus from Winona Lake today following the dissolution of the assembly last night. The dock at the assembly, which had been in session here since May 19, having been completed, the session was formally ended by Dr. Henry P. Swearingen of St. Paul, Minn., the moderator.

The assembly during its sessions disposed of more than 1,000 overtures presented from various presbyteries dealing with a variety of subjects. Approval was given to a budget of \$12,000,000 for the expenses of church boards and agencies during the coming year.

## NO RADICAL CHANGES

Despite numerous overtures, the commissioners refused to make any radical changes in the form of church government but decided to continue a special committee which has been in existence for one year and which was appointed for the purpose of studying the problems of the organization and consolidation of the numerous boards and agencies. Dr. Stone, of Chicago, is chairman of the committee. A report will be made to the next general assembly, which will meet in Des Moines, Iowa, in May, 1922.

At various times during the assembly, the commissioners expressed their approval of the work conducted by the Presbyterian New Era Movement and in the closing session voted down a resolution which proposed that the movement be terminated at the close of the period provided for its maintenance and then consideration be given to continuing its activities under another name.

## WOMEN IN GOVERNMENT

The part women should have in church government was brought before the commissioners on different occasions but they confined their action to ordering a presbyterial vote on the proposition of permitting women to be installed as deacons in the church. This vote will be reported to the next assembly.

Efforts to obtain an organic union of all evangelical denominations were discussed by the commissioners and a committee was instructed to continue other negotiations with churches looking to such a union.

Rev. Louis Seymour Mudge, of Harrisburg, Pa., was elected to fill the office of stated clerk for a term of five years. This office in the past was a permanent one. It was made vacant last year by the death of Dr. William Henry Roberts, who had filled it for 36 years.

Many resolutions were adopted. One of the more important was that presented by William Jennings Bryan, who sat in the assembly as a commissioner from the presbytery of Florida, appealing President Harding to call a conference of the nations for the purpose of securing progressive disarmament.

## HEARING DEMANDED ON BILL TO EXCLUDE FIVE TON TRUCKS FROM ROAD

A barrage of letters and telegrams will be laid down on the amendment to the Burke bill, before the Ohio senate. The amendment, if passed, will strike hard at Lima's two automotive industries, as it will prohibit use of five ton trucks on the roads of the state.

Appeal to Senator Claron L. Schaefer and Representative J. Z. Schurz was asked in a letter sent out by the Chamber of Commerce Thursday night.

No public hearing is to be held on the bill, according to plans announced from Columbus. Representatives from this district are asked to demand a hearing at which testimony can be introduced.

Taking five ton trucks off the roads will limit inter-state traffic and confiscate property of truck owners, render worthless material for making vehicles of large size; reduce amount of revenue paid to the state for high power trucks; increase traffic on roads by putting the two-ton trucks on the highway where there is now one five-ton vehicle.

Scores of letters embodying these statements were sent out Friday to Columbus demanding that a hearing on the bill be called.

The chamber, which had been debating these questions for several days, upheld the government last night on every point involved and on the general order of the day declared its confidence in the premier by a vote of 419 to 171.

It is understood that the long expected conference between M. Briand and Mr. Lloyd-George may take place next week. It is probable that a full meeting of the supreme allied council will be called for that time.

## RULING ON LIQUOR TO COME NOW

Blair Confirmation Will Clear up Revenue Bureau Matters

## ALSO ENDS FIGHT IN SENATE

Nomination Put Thru by Vote of 59 to 15

WASHINGTON. — (By Associated Press) — Confirmation by the senate late yesterday of David H. Blair, of Winston-Salem, N. C., to be commissioner of internal revenue, is expected to result in the speedy clearing up of a number of important matters that have been held up in the revenue bureau for a multitude of tax problems and a number of prohibition enforcement questions, among which are regulations to cover sale of beer for medical purposes and sacramental wine.

Another matter is that of the number of liquor prescriptions a physician may write in a specified time.

Mr. Blair's nomination was confirmed yesterday by a vote of 59 to 15, eight Democratic and seven Republican senators opposing.

Opposition to the confirmation was led by Senator Johnson, Republican, California, who charged that Mr. Blair had violated the North Carolina primary law as a delegate to the last Republican national convention and that further, he was disqualified for the office because income tax appeals of relatives were pending action before the international revenue bureau.

Pending action on the Blair nomination, Secretary of the Treasury Mellon has been acting as commissioner.

## NAVY MEET PLAN PLEASES BRITAIN

U. S. Senate's Disarmament Action Praised in London

(By LLOYD ALLEN)

LONDON. — (By United Press) — Great Britain rejoices over the action of the United States senate in empowering the president to call a disarmament conference of the powers, according to Britain's highest naval authority—Lord Lee, of Fareham, first lord of the admiralty.

Lord Lee was believed to have struck the keynote of Britain's reaction to the senate's passage of the disarmament resolution when he spoke last night at the Japan Society's dinner to the crown prince of Japan.

Speaking directly at the impassive prince Hirohito, Lord Lee declared that Japan too has recognized the universal cry for limitation of armaments. Japan has shown her courage, he said, by quickly agreeing to reduce her sea strength if the other powers agree to a program.

At the foreign office there was great interest in the senate's resolution as reported in the press. There was no official notice regarding the resolution or of the president's intentions in calling a conference.

The London press commented favorably but inferred that if President Harding calls a conference he will want it to discuss the control of cable lines—meaning that he will want a settlement of the Yap controversy.

British officialdom was less interested in that possibility, believing Japan and the United States in direct conference, could reach a better settlement than could be obtained in an allied conclave.

## BATTLE TANK NO TERROR TO U. S.

New Gun Developed to Pierce Inch Armor Plate

HAS RANGE OF 7,000 YARDS

Army Fitted With \$1,500,000, 000 Worth of Munitions

ROCK ISLAND, Ill. — (By Associated Press) — The United States has developed a .50 calibre machine gun capable of firing a bullet which, at 200 yards, will penetrate the one inch armor plate of battle tanks. Mayor Lee O. Wright, army ordnance department, announced today at the annual convention of the ordnance section of the American Society of Mechanical Engineers at Rock Island Arsenal. The new weapon is an outgrowth of the war, he said, when fighting tanks were armed to resist the .30 calibre bullet of the rifle and machine guns then in use.

The .50 calibre machine gun fires a bullet weighing 500 grains as compared to the 150 grains of the standard .30 calibre ammunition.

The gun is modeled along the plan of the Browning machine gun, developed during the war and weighs 65 pounds. The gun has a muzzle velocity of 2,500 feet a second and an effective range of from 6,000 to 7,000 yards.

America's supply of walnut for gun stocks has been so nearly exhausted, Major Wright said, that the ordnance department is now experimenting with stocks built up from thin layers of walnut cemented together.

The United States has on hand a reserve stock of munitions, as a result of the world war, sufficient to supply the army in case of war until production could be resumed and brought to full capacity, Colonel C. L. Ruggles, ordnance department U. S. A., told the engineers.

Our experience in the world war showed, he said, that men could not be mobilized and trained faster than munitions could be produced and that it took practically 20 months for the ordnance department to catch up with the army in the field.

The present munitions reserve is estimated to be worth \$1,500,000,000 Colonel Ruggles said. To replace the ammunition every 15 years, as it deteriorates and other munitions every 30 years would cost \$50,000,000 annually, he said.

Criticizing the failure of congress to appropriate any money for the purchase of munitions until ten weeks after war with Germany was declared, Colonel Ruggles said the "ideal" arrangement would be that the notice in the daily papers of the declaration of war would be notice to plants previously selected and furnished with plans to start manufacture.

## SOMETHING WRONG, BUT 'T WAS ONLY HYDRANT

That "it pays to advertise" is the surest adage ever created, is the belief expressed Friday morning by Desk Sergeant Frank Eberle, at police headquarters.

"Since Saturday's gun battle, the police department has certainly come in for its share of notice," Eberle averred. "We are receiving calls for everything under the sun. Why, only this morning, I received a call from a woman over south, demanding that I send over an officer immediately. She said there was something terribly wrong."

"Upon quizzing her as to the nature of the trouble, she informed me that something was wrong with the hydrant on her home, and that she wanted it fixed right away. Can you beat it?"

## JURY CHOSEN FOR M'GANNON TRIAL

Four Women to Take Part in Deciding Ex-Judge's Fate

## TAKING TESTIMONY BEGINS

John Joyce and Mary Neely Among Material Witnesses

CLEVELAND. — (By United Press) — Taking of testimony in the trial of William H. McGannon, former city court chief justice, on a charge of perjury, was started today before common pleas Judge Florence E. Allen.

County Prosecutor Stanton said today that John Joyce and Mary E. Neely will be among the first material witnesses.

Attorney William H. Boyd had indicated that the defense of McGannon will be practically the same as at the murder trials.

When court adjourned late yesterday, the jury box was filled after the state had used one and the defense three of their four peremptory challenges. Four women are on the jury.

Fifty-one prospective jurors were examined. The majority of those challenged stated they had formed opinions regarding the guilt or innocence of McGannon.

McGannon, who is charged with perjury in connection with his testimony given at his trials in which he was acquitted of the murder of Harold C. Kagy, sat watching every jury intently as questions were put to them.

Mrs. Ellen Griffith, woman juror found guilty of contempt of court, must serve out the ten-day jail sentence, Judge Allen declared. Mrs. Griffith testified that she told a woman bailiff that it would be worth \$500 to an organization she belonged to if McGannon were convicted.

## CITY TAKES GIRL BY FORCE

Medicine for Sick Child Refused By Columbus Parents

COLUMBUS. — (By Associated Press) — Juvenile court officials and city health officials today forcibly removed Clara Mathews, aged 12, from her home and mother and took her to the city isolation hospital for diphtheria treatment.

The child's parents, Mr. and Mrs. G. F. Mathews, belong to a religious cult that does not believe in administering medicine. When they refused to call medical aid for their sick child, neighbors notified the authorities. A court order was issued and a serum treatment given the child.

When the officials drove up to the Mathews home in an ambulance today, the parents refused to allow them in the house. Three deputy sheriffs had to be called, and it finally was found necessary to throw blankets over the girl and take her away from the mother.

While this was being done, members of the religious cult to which the parents belong, held a prayer meeting in the immediate neighborhood. Prayers were offered asking that his Satanic Majesty be driven from the souls of the officers.

## DONOVAN WANTED ROUSH ASSERTS

Chief Believes Man "James Dunn" Who Killed Policeman

## MEASUREMENTS COMPARED

Has Record. Officers Say—Chicago Attorney Here

George Donovan, alleged bandit and member of the McGann-Townsend gang, who was arrested here Saturday during the running gun fight on S. Elizabeth-st between members of the gang and Lima police, is wanted in Chicago for the murder of Police Sergeant Edwin arpool, Police Chief Roush, who has been working for the last four days in an effort to procure Donovan's correct identity, alleged Friday.

Donovan is alleged to be a notorious crook in and around Chicago, and is known to police of that city as James Dunn and John Thompson. However, since the slaying of the police sergeant, Donovan has not been seen in Chicago. Police of both this city and Chicago, believe that it was immediately following Marjool's death that Donovan became associated with the McGann-Townsend outfit.

Particulars concerning the shooting of the Chicago police officer have not been learned by local police.

## IDENTITY ESTABLISHED

Early this week, Chief Roush came to the conclusion that Donovan was of more importance in crime circles than this section of the country than the majority of officials believe. Working on this theory Roush got in communication with police of the various large cities around Lima with the result that Friday he said he had learned the true status of Donovan.

The original bit of information received was by a police circular bearing the photograph of Donovan. This was sent from Chicago. Donovan's picture in the circular is very indistinct, but the peculiar outline of Donovan's ears had a tendency to strengthen the chief's belief.

Roush then requested Herdillon's measurements of the Chicago department. When these arrived they were compared with the measurements taken by Roush, and were identical, the chief declares. Roush sent for information concerning other possible names for Donovan, with the result that he learned the man's name was not under the names of Doven and Thompson.

## NOTIFY CHICAGO POLICE

Chicago police have been notified of Donovan's arrest, and an officer from that city is expected to arrive here soon to see Donovan and further establish his identity.

That a portion of the gang is well known in Chicago, there is little doubt. Joe Willis, another alleged member of the band who is being held here by county authorities, is said to have a wife living on the North Side in Chicago. Another thing that substantiates the belief that the gang is from Chicago, is the fact that a prominent Chicago attorney has arrived in Lima to aid in the prisoners' defense.

## RECEIPT OF MONEY FROM CITY BONDS IS DELAYED

Altho \$54,000 City of Lima deficiency bonds were sold to the State industrial commission, insuring sufficient money to meet operating expenses for the first six months of the current year, the city will not receive the amount until July 1, Auditor David L. Rupert declared Friday. Sufficient money to meet expenses until the \$54,000 is available will be secured by issuing temporary certificates of indebtedness.

While the bonds are sold, Auditor Rupert states, the money cannot be paid over by the commission until their validity has been passed on by Attorney General J. J. Price.

A copy of the Griswold bill, recently passed by the Legislature, is being studied by Auditor Rupert. The message governs the issuance and sale of municipal bonds. Auditor Rupert is going over the bill and will prepare a synopsis for presentation to council at their next meeting.

## TIME COPY BOY SOPRANO HAS WONDER VOICE

Robert Murray, Tacoma, Sounds  
World's Highest Note

### OUT-RIVALS OPERA STARS

Brain and Throat Function to  
Produce Tones

NEW YORK — (By International News Service) — Dr. Frank E. Miller, noted New York surgeon, who has been attending the boy soprano, Robert Murray, of Tacoma, Wash., has written for International News Service a "diagnosis" of the remarkable physiological construction of the boy singers' throat. The youth is twelve years old and was "discovered" by Madame Frances Alda. The lad is said to sing the highest note in all music, outdistancing even Mme. Tetrazzini. The doctor's "diagnosis" follows:

"I have made several scientific examinations of the boy soprano, Robert Murray, and state that this marvelous boy has one of the most wonderful voices in the world, and has with it the geometrical brain so much desired by Plato, the philosopher, producing the strange combination of a perfect scientific voice and a perfect bird voice at will.

"The great things noticeable about Master Robert Murray are, first, and foremost, his charming personality, which inspires one with spiritual momentum that is doubly fine and good; second, he has a special kinesthetic faculty or talent by which he understands and knows at once what to do; third, his careful control of diverse qualities of voice, such as blending very intense tones, so that the compass of his voice blends as a pure boy soprano, and as a woman's characteristic quality; fourth, his agility, for he sings twelve arpeggios from G to G in five seconds or with three times the rapidity of the usual coloratura-singers.

**VOICE HAS TREMENDOUS RANGE**  
"He sings with greatest ease coloratura arias in the original keys and languages with difficult intricate traditional and original cadenzas running to G in the altissimo of the end octave of the piano forte. These are sung with accuracy, agility, flexibility, accurate tonality, pitch and with artistry. The range of his voice runs from C 128 V. P. S. below middle C over five octaves to A 6327 V. P. S. (over the top of the present piano forte) and as high as the Galton's whistle, the tone tester which is higher than any known singers' record.

"The highest record of the late A. Theodore Wangermann, who made numerous vocal experiments all over the world with the Edison Company and personally with J. Brohm's Lankow and with European savants, told in a personal conversation that the highest tone he had ever heard in any laboratory or conservatory was like a bird call, or whistle resembling the tone of the Galton whistle and was the altissimo A above F of the celebrated Mozart coloratura aria in the "Queen of the Night." It is also the tone of the highest note ever made by a seven-months old child (prenatal), as I have personally conducted experiments with their voices on many occasions. His voice is both the highest and the greatest range, even exceeding in height Lucrezia Azari, who sang before Mozart in 1770 an account of which is given by him in a letter written in 1770, in which cadenza the artist reached C in altissimo, and which has stood as the highest record from that time to the present.

**HAS REMARKABLE THROAT**  
"The boy's most remarkable vocal phenomenon is the rare eccentric vocal attainments of ancient Paraneil fame I have ever seen or heard, partly due to the wonderful development of his throat and especially his epiglottis, which resembles over a beautiful throat patterned somewhat after that of the sublime artist Maiba. The factors which make his voice phenomenal are, vocal cords of unusual density, elasticity and flexibility, almost the size of an adult soprano; an epiglottis of unusual size and thickness and highly developed, which he uses with great effect in tone production; resonance chambers in the head of unusual size and form to great resonance of tone; roof of palate, high, well arched, and the rugae there well buttressed in form for the absolute centering and correct poise of true tone production, small tonsils and uvula. All these features or factors of the ultimate tone production, while supernatural, are in no sense abnormal or freakish. They are in some respects the highest development of the characteristic and most necessary voice architecture and conditions necessary for vocalists that I have ever known.

"In addition to his vocal equipment or formation, the boy possesses a rare musicianship, memory, interpretation and ability in composition.

"I am of the opinion that his voice, which is a 'world voice' should be presented before the public at this time, under proper care and limitation without the so-called extreme stunts, and that his future voice, which can now be determined, with reasonable certainty to be tenor, can best be developed and preserved as a great world tenor by so doing."

### NO RESULTS IN CONFAB ON RESERVOIR ESTIMATE

West Virginia Operators Say  
They Welcome Investigation

WILLIAMSON, W. Va. — (By United Press) — Coal operators in West Virginia today declared the mine owners "have nothing to conceal" and expressed hope the resolution of Senator Johnson and a congressional probe would be adopted by congress.

"Such an investigation will doubtless determine the responsibility for the wholesale murders, countless shootings and destructions of property and fix the responsibility for the occupation of the field on two occasions by federal troops and the present state of insurrection, requiring the presence of the West Virginia constabulary and Kentucky national militia to protect the lives of citizens and their property," the statement said.

### OHIO MAN TO DIE IN ELECTRIC CHAIR TONIGHT

COLUMBUS — Penitentiary officials believe that Charles Rehfeld, Huron-co farm hand, who is to be electrocuted at midnight tonight for the murder of Horace Benson, Norwalk dentist, is feigning insanity.

The condemned man constantly paces his cell and gives nothing but foolish answers to questions asked him by prison guards. Prison officials believe this feigned condition will be cast aside at the last moment.

## PLENTY BUSINESS SEEN BY GARY

Declares Ability and Inclination  
Only Necessary

NEW YORK — (By Associated Press) — Full return to satisfactory business conditions will be slow until the minority of business men and workmen who have ignored the principles of common honesty are aroused to the necessity of sound and decent standards of conduct, according to Elbert H. Gary, chairman of the United States Steel Corporation.

Speaking today before the American Iron and Steel Institute, Mr. Gary, who is president of the institute, said the American people are not buying enough to supply themselves fully with the ordinary comforts of life, although they have the disposition and the means to do so. This, he explained, was due to the attitude of the purchasing public that there has not been complete and proper readjustments of prices. There is an abundance of new business, he said, "with both ability and inclination to place it, waiting for further adjustment which will put costs of living, selling prices, wage rates and other general incomes on a relative parity."

"Patience, courage and a fair disposition will bring satisfactory conditions in due time."

Present steel selling prices, Mr. Gary declared, will not permit any reduction until wages are further decreased. It would be unjust, he said, to further reduce wage rates before the costs of living are lowered.

### U. S. MEXICAN ROW THREATENS

Oregon Will Not Sign the Proposed Guarantees

### BLOCKS RECOGNITION PLAN

People May Force Southern Republic Chief to Fight

(By AL BRADFORD.)  
WASHINGTON — (By United Press) — The Mexican situation was considered most serious by the American government here today.

The statement of President Obregon to the United Press, indicating that he would refuse to sign written guarantees as the only way to secure American recognition, was received at the state department here today and read with interest.

After Obregon's statement had been examined, the United Press learned on good authority that this over the successful conclusion of the negotiations that are about to begin in Mexico between General Obregon and George T. Summerlin, counselor of the American embassy in that capital on the question of American recognition.

Obregon, it is believed here, has been prompted to adopt this attitude because of his own particularly shaky position as head of the Mexican government. Mexican leaders are constantly faced with being the subject of the cry from the Mexican people of "howling to the dictates of America." If they are United States—at least this was the case during the Carranza regime.

With the Bolshevik elements in Mexico ready to seize on any opportunity to foment revolt, and with disgruntled Carranza chieftains in the background, the situation is obviously serious for Obregon.

**GROUND FOR FEAR**  
What officials here fear is that Obregon may find when he receives the American statement that the attitude of this government is not so drastic as was purported in statements stating that Obregon must first sign guarantees before being recognized. He cannot then afford to change his position before the internal situation in Mexico. High officials are known to be greatly concerned over this possibility.

Meantime, Summerlin, bearing the American proposition, is near Mexico City and is expected to reach there sometime today or tonight. He will go immediately to the presidential palace and developments are expected to follow rapidly.

**CLASHES IN MEXICO**  
MEXICO CITY — (By United Press) — Federal troops were rushed to Jacana, Niohuacan, to suppress rioters, who have killed the chief of police, two councilmen and a number of private citizens. Two judges narrowly escaped assassination on the bench. The rioters were radicals headed by Benjamin Guerrero and their attack was directed principally against the Catholic church. They seized the municipal building and ran up the red flag. They then charged the church, firing thru the doorway and creating a panic among worshippers.

The band marched into the city behind a red flag shouting: "Long live the soviet republic! Long live Governor Mugica." Federal officials blame Mugica for the disturbances, alleging he supported them in their attack on the church.

Troops sent to Jacana were ordered to suppress the band at any cost and to punish the leaders, especially Guerrero as severely as possible. The outbreak was the second clash between Catholics and radicals in that state.

## TIRES FOUND ON PARK GROUND TURNED OVER TO SERVICE DIRECTOR

Chief of Police O. J. Roush consented to Friday turn over to the city engineering department, 14 automobile tires found by Park Superintendent Zartman in a shock of corn near Fairport park, during the past winter.

The tires have been a long source of dispute between Roush and Service Director McClain, but action of the Chief will now end the matter. The tires were evidently stolen, but no one ever claimed them, it is stated.

Eventually they were turned over to the police for safe keeping. Later Director McClain sought to get them back for use on city cars. Roush refused to surrender the tires claiming that all cost properly remain at the station for one year.

Director McClain came back with an opinion from Solicitor Garling, stating that his department was entitled to the tires. This did not alter matters, however, until Friday, when a tire on one of the "city" cars belonging to the engineering department blew up. Because the city has no money to buy new tires, Chief Roush relented and surrendered the 14 tires. If the owner claims them, the city must make good.

## WOMAN NAMED AS MEMBER OF CITY HEALTH BOARD

Mrs. E. T. Fenwick, 811 Madison-ave, was appointed a member of the Board of Health Thursday night by Mayor F. A. Burkhardt, to fill the unexpired term of L. E. Ludwig, resigned.

## WAGE PROBLEM IS NOT SETTLED AT MEETING

Failure of building trades contractors in Lima to meet with trades unionists for a discussion of wages at the Allen-co court house Thursday night, will put the acceptance or rejection of a reduction of wages, effective June 1, up to the Lima Building Trades Council.

A meeting of the Trades Council Thursday, June 2, will take up the matter and it is stated that a strike vote may be taken.

Contractors of the city announced a new scale three months ago, calling for a cut of 15 to 25 cents an hour in all trades. The building unions will refuse to accept the cut, leaders state.

## VISIT OF BAND IS DENIED

"Little Willie" Said to Have Quick Change Here

### BANK ROBBERS' CAPTURED

Roush Says Yegge Did Not In Lima.

Chief of Police Roush said there is no foundation for the originating in Toledo that the final "Little Willie" narrowly escaped arrest here and that he robbed the New Castle bank and secured \$55,000. The came to this city and abandoned their automobile.

A dispatch from Toledo said bandits who robbed the bank direct to Lima, where they abandoned their automobile.

# TWO SENTENCED TO PENITENTIARY

WAPAKONETA. — (Special). — Two-thirds of the final chapter, in the holdup of the Weber gambling place here March 3, when gamblers were relieved of \$7,000 in money and jewels by gunmen, was written Thursday afternoon when Judge F. C. Layton sentenced Al Karch and Guy Tennent, both of Celina, to the penitentiary for indeterminate terms, after they entered guilty pleas.

David Whitfield, 19, Creedmoor, North Carolina, the youngest of the trio of holdup men who pleaded guilty at his arraignment a week ago, was not arraigned for pronouncement of sentence Thursday for the reason that his attorney could not be present. He will be sentenced within a short time, possibly Friday. Prosecutor Karl Timmermeister said.

Farmers in this vicinity complain of too much rain. The precipitation so far this week totals 4.65 inches. Planting is delayed.

Wapakoneta council of the Knights of Columbus will send 22 candidates to a joint initiation at Minster, June 12.

**PARKING STANDARD LACK HALTS PLANS IN ELIZABETH-ST**

Lack of standards for parking zones is hindering efforts of the police department to carry out some of the recommendations of the Chamber of Commerce parking committee, Mayor F. A. Burkhardt learned Friday.

Orders were issued to Safety Director Fred Fisher some days ago, to establish a parking zone on the west side of N. Elizabeth-st, opposite the post office. The safety department is unable to carry out his orders because they have no signs to place there, warning motorists not to park.

The situation opposite the post office is bad, according to Mayor Burkhardt. With a line of cars parked at the curb at the east side

of the Masonic Temple and others continually halting in the street while occupants enter the post office on business, passage for traffic is often blocked.

## FALSE TIP FROM CLEVELAND

"Red" McGann Reported There in Hotel Room

### INFORMATION IN LETTER

Report of Bandit Leader's Death is Not Credited

Slowly, but apparently surely, the police net is closing around George "Red" McGann, alleged bank robber, who was wounded during the gun fight between the McGann-Townsend gang and local police here last Saturday, at which time R. H. Townsend, the other leader, was slain by Officer Watkins.

Two internationally known detective agencies have thrown out their nets for the wounded bandit and officials here believe that it is only a matter of time until McGann is captured.

Since shortly following Saturday's battle, there has been a representative of the Pinkerton agency here, while a representative of the W. J. Burns agency arrived in Lima Thursday night.

The latter is here in an effort to fasten the recent St. Paul bank robbery upon the gang. The Lima News received information that the McGann-Townsend gang was connected with the St. Paul bank robbery, at which time \$51,000 in cash and negotiable paper was stolen. This information is verified by the arrival of the Burns representative. The Burns agency at Minneapolis apparently has reason to believe that the gang was connected with the St. Paul job.

**FALSE TIPS RECEIVED**  
What has every appearance of being a false tip concerning the whereabouts of McGann was received by Chief of Police Roush Friday morning. The tip was to the effect that McGann, wounded, was lying in a room at the New Amsterdam hotel in Cleveland. Chief Roush immediately wired Cleveland authorities, requesting that the hotel be searched for McGann. This was done by Cleveland police. Chief Roush received a communication that the hotel had been raided, but McGann was not located.

Another report was current Friday morning to the effect that a man answering McGann's description and bullet wounded, died in a Cleveland hospital a few days ago. This report is said to have come from Mrs. Lucille Roberts, a former Columbus Grove woman, who is now a graduate nurse in a Cleveland hospital.

Police, however, are placing very little faith in this last rumor, declaring that they would have received some notification of the death had the man anywhere near talked with McGann's description. That the McGann-Townsend gang is composed of crooks from the west and central west is the belief expressed by the Burns representative here. The detective said he has been connected with the central western branch of the agency only a short time and while not well acquainted with western crooks, knows the more notorious eastern regman by sight. His belief that the McGann-

Townsend band was made up of western crooks, was expressed after he had examined the photographs of the members.

The belief that Joe Willis, one of the alleged bandits, who is being held in county jail here, is an exceedingly well known crook who hails from the Pacific Coast, was also expressed by the Burns operative. Willis' name as he was known in San Francisco, however, was not revealed.

### LIMA POLICE PRAISED

The Burns representative was exceedingly complimentary in his remarks concerning the local police department. He said: "Lima police are to be complimented upon the pickup. It was certainly creditable. The man or men who were responsible for the pickup certainly deserve a lot of credit."

In the meanwhile, Sheriff Baxter is endeavoring to locate any property that Townsend may have had secreted here. Up to a late hour Friday afternoon, the sheriff's hunt had not been rewarded.

A bit of human interest is added to the story by the revelation that Townsend's parents, in Douthat, Oklahoma, were forced to mortgage their home to enable Mrs. Townsend and son, Jefferson, 17, to make the trip here. A detective from Columbus, citing the difference between Townsend and McGann. He said:

"Evidently McGann was higher principled than Townsend, for with all the money the latter evidently had, he allowed his family to suffer. McGann, recently, purchased a \$450 casket and paid the cost of a very elaborate funeral for his brother, Monk McGann who was killed by police following a bank robbery in Pennsylvania."

## AUTOS NEEDED FOR MEMORIAL DAY

Appeal Made for Donation of Use of Cars for Aged and Infirm

An appeal is made to owners of automobiles by committees of the G. A. R. and W. R. C. and other patriotic societies for the use of cars in transporting the aged and infirm soldiers of the civil war to the cemeteries on Decoration Day, Monday. A request for the donation of the use of cars is made as follows:

To the citizens of Lima: Once again comes the call to decorate the graves of the soldier dead. While attending to this important duty is it not well that we pause and pay homage to the living as well?

While at this time we do honor to the memory of the soldiers of all our wars, we still have with us a small band of veterans of the civil war, 1861 to 1865, who are nearing the borderland and who are now too old and infirm to march as they once were able to do.

Do you not think that it looks bad that in view of what these men have done for their country, that they are asked to ride to the cemeteries in furniture trucks on Decoration Day? We feel that it is the duty and it should be a pleasure as well, for the citizens of Lima and surrounding territory who have automobiles, to take them to Memorial Hall Monday morning at 8 o'clock and assist

in transporting the veterans to the various cemeteries.

It was for their sake that this day was set aside as a holiday. Can we not, for just one day in the year, lay aside pleasure for a few hours and assist them in their devotion to their dead comrades? Only a few years and their duty will fall wholly upon the public and patriotic societies, for the ranks of the veterans are fast thinning.

Let us appeal to you who have automobiles to set aside Monday morning and take your cars to Memorial Hall, for the use of the patriotic societies in this noble cause.

Those who can furnish machines please notify C. E. Gopeland, 709 E. North-st. Phone Main 1616.

W. D. HEFFNER, MRS. S. J. DERRYSHIRE, Committee.

The executor and a sister, Sarah Beery, share the estate equally, which consists of \$1,600 in real estate and \$400 in personal effects. Albert Cook, Samuel Hilty and Ezra Bucher were named appraisers.

## Interviews--- Ideas and Fancies

**FRANK KOMMINSKY**, White Mountain Creamery: "The slump in the price of butter is having the effect of increasing the consumption of that product. This will hit the electromargarine trade. Prices of butter substitutes have been steadily dropping increased consumption of butter will gradually stabilize prices and later increase them."

**C. S. IRELAND**, 215 E. O'Connor-st.: "A policeman should be able to do much good, providing he works on cases that are really of some value and does not waste his time on unimportant things. Lima needs real policemen and police-women who will deliver the goods. Let the chief and his men continue the good work of last Saturday."

**ARVILLA DILTS**, 518 S. Main-st.: "It will be a good thing if the market house is opened each week day. I often buy supplies there and know that many others do also. The vegetables are fresh and there is some saving of money by going there. Many of the dealers are farmers, I believe."

**REV. E. A. WATKINS**, 557 W. Elm-st.: "A minister who makes a business of running a 'Gretchen Green' and competes with another minister in seeing which can marry the most sloping couples, should receive some kind of a calling down. It should be possible for all couples who desire to marry and who really love each other and desire to establish a home, to be married, but commercialization of the marriage service should not be tolerated."

**WELDON HARGITT**, Elida-rd.: "I see that some of the restaurant managers are lowering their prices, but to my notion they are still too high. A common practice is to lower the price and then to decrease the size of the portions. It isn't what you pay but what you get that counts. I have worked in restaurants and I know what a portion costs, both on short orders and in meals. I believe that most restaurants should lower their prices still more."

**C. W. SCHAAF**, 622 E. Center-st.: "An armored police car seems to me to be a step in the right direction. Automobile bandits are fearless and when they shoot they expect to kill. We should not endanger the lives of policemen any more than necessary. A high speed car would aid in the arrest of many crooks and thus help to stop outlaws."

# ARMY CAMPS TO OPEN IN JULY

Nine Corps Areas Mapped Out by War Department

CIVILIANS WILL BE TRAINED

Requirements for Admission Are Not Made Severe

WASHINGTON — (By International News) — Men up to thirty-five years and who have little or no military training are to be given an opportunity this summer by the War Department to receive a month's military instruction, carefully supervised, physical training at citizens' training camps which are to be opened throughout the country.

The War Department is rapidly completing plans for these camps and has announced that their opening is to be some time between July 15 and August 20. Present plans provide for the establishment of a camp in each corps area in order that those who attend may not have to be far from their homes. The camps, according to the War Department, announcement of its preliminary plans for their establishment, are in furtherance of the policy of volunteer military training previously endorsed by President Harding.

Attendance at the training schools will be without cost to the candidates. Upon being accepted for enrollment, a candidate will proceed to the camp in his corps area and upon his arrival will be reimbursed for the amount of his travelling expenses. Instructors will be detailed to the

## SCORES OF LIMA CITIZENS VISIT DRECO MAN AT HUNTER'S DRUG STORE

Many Relate Their Experiences for Benefit of Others Who Suffer. Declare Dreco has Overcome Stomach Trouble, Weak Kidneys, Constipation and Liver Trouble

In conversation with a group of prominent citizens in Lima yesterday, the Dreco man who is making a short stay in Lima said:—

"Many people in this section are suffering from stomach trouble and don't know it. They pay no attention to the warning signals sent out by the stomach after each meal—that heavy, uneasy feeling, slight gastritis, acid risings and other symptoms which rapidly grow worse until finally the victim finds himself in the grasp of the commonest of all known illnesses, indigestion. This, even with the best of care, is likely to develop into kidney complaint, constipation, rheumatism, liver trouble and other serious ills. I hear many reports though, of persons who have heeded the warnings of Nature and have corrected these troubles in time. For instance this lady says:—'I was a sick woman, couldn't eat a thing; I didn't eat for six days,' said Mrs. Jay Morrison, 775 S. Union-st., this city. 'Everything I put in my stomach was thrown up, even water would belch up hot as fire and make my throat raw. I was full of gas and nauseated most of the time. 'A friend told me to get some Dreco which I did and that's the medicine which did so much good. I am now eating anything put before me and never throw up a thing. My stomach seems to be well and strong and I feel good all over. Dreco did for me what others failed to do.'"

If you should happen to be in the same fix as this lady, better do as she did—take Dreco and get well.

Mr. Day, the well known Dreco expert, has headquarters at Hunter's Drug store, 49 Public Square, to meet the local public and explain the merits of this great remedy. See him today.

## COLUMBUS PARTY HERE FRIDAY

Return to Lima After Trip Made  
to Delphos

SPENT FRIDAY NIGHT HERE

Prominent Men of Both Cities in  
Addresses

An inspection of Lima stores and factories was made by the 125 members of the Columbus Manufacturers and Jobbers Association upon their return here Friday morning. The party spent two hours here following their trip to Delphos aboard their special train. They arrived at 9:30 and left for Sidney at 11:30.

Over a hundred local business men entertained the visitors at the Lima Club Friday evening and a better acquaintanceship was formed between the local and the Columbus men. R. B. Dunn, president of the Chamber of Commerce, was chairman of the meeting and aided in "breaking the ice" by seating the Lima and the Columbus business men alternately about the tables.

Addresses of welcome were given by the presidents of the local manufacturers and merchants' associations. The manufacturers assured the visitors that Lima would be the center of the richest industrial valley in the United States within the next few years. Paul Crawford, representing the retail dealers, prophesied that Lima will some day be one of the largest cities of Ohio and warned the visitors that even the state capital might be moved here. Mack Altschul spoke for the wholesalers and jobbers and told of the

efficient telephone system in operation here.

One of the interesting features of the meeting was a quartette from the Columbus organization which gave a number of humorous selections.

### NO SLUMP IN BUSINESS

"We refuse to acknowledge that there is any business slump," said Lieutenant Governor C. J. Brown, the main speaker for the visitors. "There is at the present time a temporary suspension of buying on the part of the public, while the market changes from that of a seller to that of a buyer."

Other speakers were Mayor J. J. Thomas, of Columbus, and former Congressman J. J. Lentz. Both argued for more business in government and less government in business.

After the luncheon at the Lima

Club the visitors were accompanied to the Elks' Home where a special party was staged by the members. An entertainment, including a vaudeville show, was put on.

Inspection of the telephone system was made by members of the party Friday night and Saturday morning. Much interest was evidenced in the local plant, which has received favorable comment in various parts of the state.

This tour of the Columbus business men started Tuesday and covered the northern part of Ohio. It was made to give the merchants an idea of the resources and possibilities of the different parts of the state. This is the fourth trip which has been made, but the first time Lima has been visited.

## VANCOUVER TO BE WETS' HEAVEN

West Coast Province Passes Act Allowing Sale of Drinks

TOURISTS CAN IMBIBE

Predict Stampede From South of U. S. Border

VANCOUVER, B. C.—(By International News Service)—There is going to be one perfectly gorgeous time in British Columbia when the new Moderation Act goes into effect. At least the Government seems to think so, for even before the new liquor commission which is to take care of the selling and getting into harness, a thoughtful department had ordered carloads of champagne. So far, however, the day when the prohibition law is to come off has not been announced. Once the champagne is here, however, there ought to be no further occasion for delay.

Judging by the daily announcements from the liquor commission's office the press agency has been put into competent hands. The publicity is of a kind calculated to put a very nice edge on the prevailing thirst. There is talk not only of the best and sourest whiskeys, of real brandy and wines of rare vintage. The commission is out to satisfy the taste of the connoisseur—as well as that of the man who merely wants something with a kick in it. Even the Oriental palate is to be catered to, orders having already gone across the Pacific for the finest flavored and other strong waters specially favored by the Japanese and Chinese, who, by the way, are to have liquor stores in their own "towns."

### RYAL OF GARDEN OF EDEN

Let it be understood clearly, however, that the business is to be conducted in a dignified manner. A gentleman will no more take his bottle home under his arm than he would carry a suit bag from his store. There will be no sign of liquor, in fact, about the salesrooms. The prospective imbiber will go into a business office and give his order, not to a white-coated bartender, but to a refined, black-coated, floor-

### PROMPT RELIEF FROM CONSTIPATION

### WENDELL'S Vegetable Cathartic LIVER PILLS

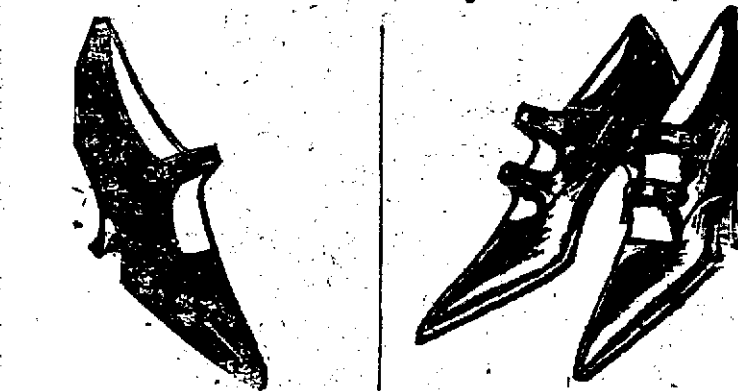

Hundreds of people can tell you of the superiority of Wendell's Vegetable Cathartic Liver Pills. If you are constipated or bilious, or if you have headaches, bad taste in the mouth, foul breath, or feel dull and drowsy you should give Wendell's Vegetable Liver Pills a trial tonight.—No pain, no griping, no after distress. Just an easy, regular action—prompted by the stimulation of the bile. Wendell's Vegetable Cathartic Liver Pills never force, and cannot form a habit. Their action can always be depended upon. One trial will prove it. At Enterprise Drug Store or any good drugist 25c.—Adv.

### Another Convincing Endorsement Given Famous Nerv-Worth

Fosteria, O., Men Quickly Overcame Weakness, Nerves, Sleeplessness.

"I had a sick spell, and it left me in such a nervous condition that I could not sleep," wrote M. W. Betser, 230 W. North St., Fosteria, Ohio, "I was weak in the legs and couldn't go to work without being tired out at night. I decided to try Nerv-Worth and after my second bottle, I am happy to say I sleep good, and I'm not a bit nervous. I am getting more strength every day. Nothing needs to be added to the above statement to make it more effective be-

walker-sort-of-person, who will hand him a receipt for his money after endorsing the quantity of the order on his permit. A day or two after a van from the liquor warehouse situated far away from the liquor office will deliver the goods at the address where they are required. This delivery charge is to be absorbed in the purchase price. Of course, if the purchaser insists, he can go around to the warehouse and take up his consignment himself, a method that is likely to be adopted by persons desirous of avoiding both the domestic and general publicity attending the arrival of the liquor commission's vehicle at the door.

Two prophecies are very generally made. The first is that the Government will succeed in its effort to put the bootlegger out of business by crushing competition; the other that it will also succeed in provoking a demand so strong for the total abolition of the liquor traffic that the framers of the next prohibition law for British Columbia declared due about the Spring of 1922, will be able to give cards and apices to the man who wrote the Eighteenth Amendment of the United States Constitution and even to Mr. Volstead himself when it comes to formulating a really bone-dry act.

### Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting relief? Why cutting and operations fail? Do you know the cause of piles is internal? That there is a stagnation of blood in the lower bowel? Do you know that there is a harmless, internal tablet remedy discovered by Dr. Leonhardt and known as HEM-ROID, now sold by Thompson's 3 Drug Stores and druggists generally that is guaranteed?

HEM-ROID banishes piles by removing the internal cause, by freeing blood directly in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers, and saves the needless pain and expense of an operation. There is no reason why it should not do the same for you.—Adv.

### Claims Dandruff Will Cause Baldness

If you have dandruff you must get rid of it quickly—it's positively dangerous and will surely ruin your hair if you don't.

Dandruff heads mean faded, brittle, scraggly hair that finally dies—new hair will not grow when you are hairless and nothing can help you.

The sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, safely and without risking a penny get from your druggist a bottle of Parisian Sage. This is the best, most effective dandruff, stop itching scalp and itching hair, and stimulate a new growth, or the cost, small as it is, will be refunded.

Parisian Sage is a scientific preparation that supplies hair needs—an anesthetic liquid, neither sticky or greasy; easy to use, and daintily perfumed.

If you want beautiful, soft, thick, lustrous hair, and lots of it, by all means try Parisian Sage. Don't delay—begin tonight—a little attention now assures abundant hair for years to come.

Thompson's 3 Drug Stores will supply you and guarantee money refunded if you are not entirely satisfied.—Adv.

LONG GIVEN UP FOR DEAD  
Put in Charge of Tannery, Com-  
pelled to Remain

TOLEDO.—(By Associated Press)—Years spent in amassing a consid-  
erable fortune in Russia was for-  
gaht when Joseph Kasper, brother-  
in-law of Mrs. Yetta Krupp of To-  
ledo, fled the country, glad enough  
to sacrifice his wealth to escape Bol-  
shevist rule.

For three years, no word from  
Kasper had been received, and rela-  
tives in Ohio had given him up for  
dead. He now is safe with his wife  
at Suwalki, Poland, a letter recent-  
ly arrived, said.

Kasper became separated from his  
family in 1918, when he went to the  
Ukraine on a business mission.

In Russia, according to the letter,  
the Soviet government meant to  
make use of Kasper's knowledge as  
an expert tanner, and he was placed  
in charge of a larger tannery and  
compelled to remain there.

Kasper has a son, Joseph, resid-  
ing in Bucyrus.

## OPEN LETTERS

### To the Public

**FRIENDS:** Who are you going to nominate as your candidates for members of school board? There will be two vacancies and nominations must be in sixty days before the primary date in August. Your schools are about the most important thing in your city; and the board handles more money than even your city hall attaches. Suggestions are in order.

### To Soda Fountain Proprietors

**GENTLEMEN:** When sugar prices soared you put up the price of drinks you serve, declaring it was because of the sugar cost. The price of this staple now is lower than for years, still your price list, for the most part, remains the same. Why?

LIMA BEANE.

### To Parents

**MY FRIENDS:** Years ago the public streets of the city could be used by children as playgrounds with very little danger to the kiddies. That was before the day of automobiles and motorcycles. Today, children take their lives in their hands when they step into the thoroughfares to play.

During the last week I have taken special note of this practice. I find it prevalent in all parts of the city. I have seen several little tots, chasing balls or pet animals narrowly escape death beneath the wheels of automobiles.

I hope you realize that no matter how careful drivers may be it is impossible for them to stop their cars in all cases when children dart in front of them. I know the little ones must have recreation, but please do not allow them to put themselves in places where death awaits in order to find it.

**MY DEAR TOM:** Washington advises tell me thru the medium of my favorite beneficiary of a deadlock between Charley Nauts of Toledo and George Stauffer of Ottawa for appointment as collector of internal revenue, Toledo port.

I'm strong for you, Tom. It is pleasing to me to see an Allen-co man favored in the matter of an appointment, no matter what his politics may be. Here's hoping you'll land.

### To Columbus Jobbers

**DEAR FRIENDS:** Was very glad to have you with me Thursday night, at the Lima club, where a feast was spread for your enjoyment and where you were enabled to meet a large number of my best citizens, progressive business men, manufacturers, professional men and others.

Doubtless you have been accorded splendid entertainment at all places you have visited and I feel sure that you have enjoyed your visit all the way. It was a new experience for me to witness the operation of the radio telephone and I thank you for the opportunity.

LIMA BEANE.

### To Safety Director Fred Fisher

**MY DEAR FRED:** Information comes to me thru the media of my favorite newspaper that you are making an effort to secure some needed accessories for my police department.

I heartily agree with you that Chief Roush and his men should have the use of a high powered motor car, for the pursuit of bandits and for other use when occasion may demand.

Likewise, I feel that the increase of salary for patrolmen, granted some time ago, should stand.

LIMA BEANE.

### To J. H. McClure

**DEAR HARVEY:** The frequency of hold-ups, or attempted holdups, of the motormen and conductors on our street cars in my city is becoming such that, if continued, you'll soon be forced to equip your cars with machine guns, in charge of competent gunners.

The persistence of bandits in endeavoring to separate your car men from money is not only reprehensible, but also is not conducive to the peace of mind of the men.

I trust that such untoward incidents will cease and that there will be no occasion for the necessity of having armed men ride the city cars at night to repel holdups.

LIMA BEANE.

### To Lima Lions

**DEAR BOYS:** I congratulate you and thank you. The manner in which you went about the task at Dayton of securing the 1922 state convention of the Order of Lions for my city could not result otherwise than in success.

I thank you for affording me the opportunity to play host to a couple of thousand of the representatives of your excellent booster organization. I know I'm going to enjoy having them here and I trust that they will find their visit equally pleasurable.

LIMA BEANE.

### To You, Mr. Voter

**IN AUGUST** you will be asked to vote upon the names of men from which number five are to be elected at the November election as your new City Commission. Now I do not wish to be considered for any office, under the gun that you can give me; there is only one job I ever wanted and the former Good Governor Frankie Willis copped this from me, last year.

But listen, how would Lima prosper if you could induce such men as John E. Galvin, Robert J. Plate, Floyd Van Pelt, representing Labor; Dr. W. H. Parent, Uncle Joe Askins or W. J. Dempster from the south side; William H. Duffield, Ben F. Thomas, Ed or Frank L. Mair, Lew A. Larsen, Frank Harman, hunt up a couple of high class B. & O. or Lake Erie trainmen to run and then let the five chosen operate things on a business basis?

We are going into City manager form of government to better things; politicians should be excluded. I regret Walter Jackson will not accept; he owes it to his home town to stand for the nomination; for he has been good for the town and the town has been good to him. Remember when he sold ice and was brakin' on the old Lake Erie? Think it over.

LIMA BEANE.

### To You Who Did It

**WITHOUT** embarrassing him, I want to take my hat off to that Maitre D'Hotel who voluntarily reduced his De Luxe dinner prices and put on a 1914 luncheon for the folks around town as well as the travellers who wend into the city. They tell me they are week-ending at Lima's four hotels now where they formerly stayed in Toledo or never came up from Dayton or over from Ft. Wayne.

Some restaurants should take the tip.

LIMA BEANE.

### To F. E. Harman

**MY DEAR FRANK:** I want to applaud the accomplishments of your committee in staging a tag day event for the benefit of my city parks. My only regret is that better results were not obtained, but I trust that as a result of a conference to be held today by the park commission that plans can and will be devised whereby the desired fund of \$1,500 can be secured.

Tag Day, I am informed, was productive of only \$650 being raised. I feel certain that another effort would be productive of good results.

#### WHY GOLFERS ARE DIFFERENT

He never made the major league when he was playing ball. He couldn't make his college team, but didn't grieve at all; When he was young and supple and had strength to spend and spare, He'd strike out with the bases full, but didn't rave and swear; And he didn't fling his bat away or sit around and sob Because he couldn't steal a base or hit like Tyrus Cobb. When he was playing tennis, his was not a topnotch game, His play was ordinary, but it pleased him just the same, He was happy and contented if he conquered now and then

And never dreamed of ranking with the leading tennis men; He played the game for pleasure and he didn't fuss or fret Every time he missed in service or his ball went in the net. But today he's fat and forty and his stomach's in the way And he's listed with the golfer's and he's learning how to play; There is age upon his shoulders, and there's stiffness in his bones, But he wants the pro to teach him how to drive like Bobby Jones, And Alex Ross can't tell him, when his brow with sweat is damp, In a way that is convincing, that he'll never be a "champ."

### HEALTH HINTS

By William Brady, M. D.

A nurse asking for advice gaining weight remarks: "I accept none but twelve cases," meaning that she feeds work more than twelve hours a day. At that, she works about four longer than a woman should. And she does hard work, too. Yet there is no other call for nursing—I myself do not nurse a profession, but I am a calling which the most sacred, callings, motherhood, that wins a young woman so much love respect as that of nursing. It hard life with mighty little glamour which surrounds the youthful romance, yet a noble and full of such thrills as never be felt vicariously in the imagination.

Young women who seriously to study nursing should under that practically every good school today requires a college high school education as a necessary qualification for admission the prescribed course. Here there a hospital or other institution may admit young women who not high school graduates, would not advise a young woman seek training in such an institution if you are not prepared to go for a first-class training, do to find a short-cut. But to practical nurse without any tenses to the skill of a graduate. We have plenty of nowadays for intelligent, worthy women who are prepared to do practical nursing.

The young woman intending study nursing must have good study habits and cannot call work a pupil nurse is called upon to do in the two or three years of training.

Two years is an ample time the thorough training of good nurses, although a few hospitals with a slightly highbrow notions have a three-year course. This sends one good year of life waste as far as all ordinary medical surgical and obstetrical nursing concerned. A good many three graduates are spoiled by the flimsy year—made top-heavy—would have been far better had they finished at the end of second year. Of all the data there is none greater than the ger of a little knowledge. A nurse is never found pretending to diagnose ailments and prescribe treatment—incompetent and most doctors are fond of that. Any young woman contemplates the study of nursing as a career should discuss the matter with family doctor or any doctor of standing in her own community. In a position to advise her well.

# KIPLING STORY, 'WITHOUT BENEFIT OF CLERGY'

Picturized Version of Romance of Engineer and a Girl in India is Sad Story

Reviewer Passes on "The Little Clown," "Society Snobs" and "Colorado Pluck"

(By ESTHER WAGNER)

AMONG the list of new movies to be seen here during the summer months, is the picturized version of Kipling's "Without Benefit of Clergy," the romance of an engineer and a Hindu girl in India. It's a sad story, is "Without Benefit of Clergy," and is the first of Kipling's short works to be filmed. Others, it is stated, will follow.

John Holden, British, was a government engineer. Ameera was a Hindu girl of Lahore, India.

He bought her with silver from her mother, who would have sold her shrieking to the prince of darkness, had the price been offered.

The girl bore him a son. She was wild with delight, her mother almost as much so.

The love of a man, and particularly a white man, was at the best an incestuous affair, but it might, both women argued, be held fast by baby's hands.

The engineer loved the girl and his son greatly. The son died of seasonal sickness, autumnal fever and a little later the girl died—three hours sick of cholera. That's all. Except for the desolate picture of the house in the rain—empty and abandoned!

A simple story of bereavement, from Kipling's short tale, "Without Benefit of Clergy."

It's the first of his short stories to be made into a movie. The author said to have had a hand in making the scenario. Its beauty is said to have survived the studio but it will be doubted if this beauty will survive censorship. The movie was made by Pathe.

## "The Little Clown"

MUCH may be said for the above production from the point of view of Kipling's fans. To begin with, Mary Miles Minter is in it, and the beloved smile and gestures may seem a bit forced, they are there. All of which is considerable. Also, in "The Little Clown" Mary has the support of splendid players, headed by Jack Mulhall who is a favorite. The production is artistic and well photographed. That's that.

As to the story—that is Avery Hopwood's and it was a stage play before it was made into a picture. The little clown is—a little clown. She's been in the circus business since a mere infant, and doesn't know who were her father and mother.

Then she meets the son of an old southern family. He's had an argument with his father and has set forth to conquer the world, alone and unaided. Being something of a rider he is engaged as a "bareback" performer. And he learns to love her, the aforesaid little clown.

When things right themselves between father and son, nothing will do but that the little clown shall go home with him, there to be instructed in the social p's and q's, that in time she may take her place as Young Mrs. Beverly. (The idea, of course, is very, very popular with the elderly Beverly—not!)

Well-streuous times ensue, for the little clown brings circus ideas and manners and a circus monkey into the stately halls of aristocracy and things look pretty hopeless. But—happy ending!

(Perhaps you'll be dippy about the picture.) It's at the Pathe.

"Society Snobs"

THEY could do worse things in this world, you know, than star Conway Tearle. Just the same, he'd better go right back where he was, frankly supporting lovely ladies. Not that, as an actor, he cannot act alone. Far from it. He can, but nobody wants him to. In "Society Snobs," at the Lyric, Mr. Tearle, my dears, is a mere waiter who has long loved the beautiful

and statuesque Miss Vivian Forrester. Well, knowing that he can never hope to win the lady as long as he is but a waiter, he makes himself a duke, gives himself a fancy name and is admitted to the inner circles. And Miss Vivian loves him.

They are married, but on their bridal night, Carol, as he is known, rebels at the fact that he is living and tells everything. Follows a scandal in the papers: "Common waiter posing as nobleman, fools society," etc.

You know as well as I do that the cold Miss Forrester learns that she loves her husband despite the fact that he is a servant, and just as he is to leave them forever, she turns up, speaks her little love speech and goes with him. But wait. Carol had been well born and bred, had been well educated and had only resorted to being a waiter because of financial difficulties. Curtain.

The plot is a weak sister, but you forget its weakness in the splendid work of Mr. Tearle. He's the popular strong arm to lean on, the bulwark in moments of feminine distress that stars and fans love best. He's Conway Tearle, every minute of the time.

The supporting cast is something to mention; There's Martha Mansfield, another beautiful Follies girl, who, like all Follies girls, treats her audience to many and varied views of her wonderful profile. Kathryn Perry, who won the Golden Apple last year as the most beautiful show girl in New York, is also seen in a minor role. George Stearns, Antia's kid brother, is there and Huntley Gordon, debutant and dignified, as of yore. Can't find a thing to knock, outside of the story itself and the stilted dramatics of Miss Mansfield. "Society Snobs" is a picture to be seen, for of course you like Mr. Tearle.

Yes, girls, he's married.

"Colorado Pluck"

YOU'VE got to hand it to William Russell when it comes to putting acting and general mischief into pictures. Give him action, give him blood and he'll hand out a picture as entertaining as they make 'em.

In "Colorado Pluck" Mr. Russell is known as Jim, a miner who strikes it rich and goes east to give Broadway the once over and relieve himself of some of his money. There he meets one Reggie Featherstone, an Englishman who has come over to America for to get himself a wealthy bride. Reggie, unschooled in the ways of B'way, is saved from an adventuress by Jim, and the two become fast friends.

Reggie takes Jim over to England with him, where he hopes to marry him off to his sister, Angela. Of course, Reggie's family is poor, the keeping up appearances, Angela, to save her father from ruin, marries the uncouth miner, and then informs him that she can be a wife to him in name only. Old stuff!

Well, Philip Meredith, who had always wanted Angela, continues showering her with attentions and Jim endures it as long as he can, but finally he prepares to go back to his mines and peace. Angela, to avoid a scandal, goes with him. There, in the great, golden west, as the writers say, she found herself, finds she loves her husband and is supremely happy in the glory of her new found love. Finito.

George Goodchild wrote the story, Mr. Russell the dauntless, gives his usual whole-hearted portrayal.

Old stuff!

Well, Philip Meredith, who had always wanted Angela, continues showering her with attentions and Jim endures it as long as he can, but finally he prepares to go back to his mines and peace. Angela, to avoid a scandal, goes with him. There, in the great, golden west, as the writers say, she found herself, finds she loves her husband and is supremely happy in the glory of her new found love. Finito.

George Goodchild wrote the story, Mr. Russell the dauntless, gives his usual whole-hearted portrayal.

"Society Snobs"

THEY could do worse things in this world, you know, than star Conway Tearle. Just the same, he'd better go right back where he was, frankly supporting lovely ladies. Not that, as an actor, he cannot act alone. Far from it. He can, but nobody wants him to. In "Society Snobs," at the Lyric, Mr. Tearle, my dears, is a mere waiter who has long loved the beautiful

and statuesque Miss Vivian Forrester. Well, knowing that he can never hope to win the lady as long as he is but a waiter, he makes himself a duke, gives himself a fancy name and is admitted to the inner circles. And Miss Vivian loves him.

They are married, but on their bridal night, Carol, as he is known, rebels at the fact that he is living and tells everything. Follows a scandal in the papers: "Common waiter posing as nobleman, fools society," etc.

You know as well as I do that the cold Miss Forrester learns that she loves her husband despite the fact that he is a servant, and just as he is to leave them forever, she turns up, speaks her little love speech and goes with him. But wait. Carol had been well born and bred, had been well educated and had only resorted to being a waiter because of financial difficulties. Curtain.

The plot is a weak sister, but you forget its weakness in the splendid work of Mr. Tearle. He's the popular strong arm to lean on, the bulwark in moments of feminine distress that stars and fans love best. He's Conway Tearle, every minute of the time.

The supporting cast is something to mention; There's Martha Mansfield, another beautiful Follies girl, who, like all Follies girls, treats her audience to many and varied views of her wonderful profile. Kathryn Perry, who won the Golden Apple last year as the most beautiful show girl in New York, is also seen in a minor role. George Stearns, Antia's kid brother, is there and Huntley Gordon, debutant and dignified, as of yore. Can't find a thing to knock, outside of the story itself and the stilted dramatics of Miss Mansfield. "Society Snobs" is a picture to be seen, for of course you like Mr. Tearle.

Yes, girls, he's married.

"Colorado Pluck"

YOU'VE got to hand it to William Russell when it comes to putting acting and general mischief into pictures. Give him action, give him blood and he'll hand out a picture as entertaining as they make 'em.

In "Colorado Pluck" Mr. Russell is known as Jim, a miner who strikes it rich and goes east to give Broadway the once over and relieve himself of some of his money. There he meets one Reggie Featherstone, an Englishman who has come over to America for to get himself a wealthy bride. Reggie, unschooled in the ways of B'way, is saved from an adventuress by Jim, and the two become fast friends.

Reggie takes Jim over to England with him, where he hopes to marry him off to his sister, Angela. Of course, Reggie's family is poor, the keeping up appearances, Angela, to save her father from ruin, marries the uncouth miner, and then informs him that she can be a wife to him in name only. Old stuff!

# MISS CHRISTEN'S DAILY PAGE OF CHAT AND SOCIETY EVENTS 13 PILGRIM BABES READY FOR HOMES

**NEW YORK** — Thirteen baby "Pilgrims" from England were among the passengers on the big Cunard liner Aquitania. They are to be adopted into homes under the auspices of the British-American Adoption Committee. There were ten girls and three boys, ranging in age from four weeks to three years, in the unusual party of immigrants. The "Pilgrims" were under the care of Mrs. V. C. Allen, of England Adoption Society, and three nurses, and occupied a de luxe suite of three rooms—an apartment usually set aside for distinguished passengers.

Captain Sir James Charles, skipper of the liner, found time among his multifarious duties to wander down to the suite de luxe and hold the nursing bottles for the little travellers, and he pledges his word that for once there was superior authority to that of the captain aboard the immense liner. The babies commanded the ship and took especial delight in Sir James's gold braid.

Mrs. Alfred C. Brogan extended the hospitality of her home Thursday to the members of the Keola club. Needlework and contests, in which Mrs. M. C. Leist and Mrs. Emma Pate were successful were diversions of the evening and at a late hour, a dainty repast was served. Mrs. W. L. Stokesbury and Mrs. Elmer Berlingourt were guests.

# SEEKS FIANCEE OF ANOTHER

**"Dissatisfied" Is Advised to Forget It.**  
**Not Likely Color of Eyes Has Anything to Do With Sincerity**  
**"Baby Blue Eyes" and "Piccadilly Ann" Have Love Affairs**

Dear Miss Smart:  
All in love with a man who is engaged and is going to be married in several months, I know this man cares for me and I cannot help but believe he thinks more than of his fiancée. He has so many little attentions. Do you there is any hope of my winning him?  
DISSATISFIED

**M**Y dear girl, surely you know that you are not doing anything in trying to win this man from his fiancée. Just put yourself in her place. If the young man did not love her he never have wished her to become his wife. The only thing for you is to accept his marriage to another as an assured thing. Face it now. I feel very sorry for you, but it is better that you spare yourself deeper heartache by meeting the facts now and realizing that you give him up. Any other course would be unfair to the man, to his and to yourself.

Frankly, I think you have been a very foolish girl who has made the little attentions which this man has shown you when they have meant merely courtesies which any man may offer a girl. Be glad you your friendship and be content with that.

If, however, you feel that the young man has encouraged you believing that his regard for you was deeper than friendship, that fair to you or to his fiancée. In that case he is not worthy of the affections of either of you.

In the future cultivate new interests. Don't strive for the impossible. Be satisfied with what life has to offer you and forget this man pledged to another.

Dear Miss Smart:  
(1) Which person is more sincere, one with blue eyes or brown eyes? (2) I have a very dear boy friend away from here. He cannot come to see me, because of parental objection. I love him more than I ever can love anyone else. We cannot even correspond except when we slip letters out. He is not so much as the average boy of today. We are 19 years old. I feel we are old enough to feel real love. Please advise me. (3) What do the names (a) Ruth, (b) Richard and (c) Alice mean? (4) Is Minnie a real name or just a nickname? (5) Give directions for marcelling the hair. (6) How old must one be to be married? (7) Am going with a man three years my senior. He treats me nicely. I went with his cousin for six months and then we quit. I cannot care for the last one like I did for the first. Would you advise me to go back with the first one? He goes with another girl now. How can I win him back? (8) I have never heard of the color of one's eyes being considered in connection with the depth of his or her sincerity. (9) Perhaps you are old enough to recognize true love, but you must remember your parents wish to safeguard your happiness; not ruin it. They are, perhaps, the best judges in this case. If you feel that the young man is respectable and that his love for you is sincere, the only thing for you to do is to try to convince your parents that they are mistaken and have not the proper conception of his character. (10) (a) Beauty; (b) powerful and (c) princess. (11) Minnie is a "real" name I think. (12) There are few directions which

I could give you for marcelling hair. It can be marcelled nicely with electric curlers dampening it a trifle. Take small portions of the hair, wrap around the curler and allow remain there the desired length of time. The hair may also be curled by the electric iron. (1) Ages vary in the different. In Ohio a man must be 21 years to marry without his parent's consent; 18 years with consent. Must be 18 to be married without parent's consent; 16 without parent's consent; 14 without parent's consent. (7) Apply the Golden Rule.

case. If the young man cares for you, how would you like to some girl win him away from you? He has doubtless grown tired of you and you could not force him to return to you. Love thing which is divinely sent goes where it will. Do not be rowful because of all these disappointments which you had cast upon you. The must be mixed with the sweet life and you will be strengthened by your determination to yourself and make the best things.

I have added to my Grocery Store a

**Royal Coffee Roaster** And Will Blend and Roast Green Coffee Daily

Thereby giving you coffee with nearly double the strength and aroma, with which you will be more than pleased after using one pound in your home.

**5 Reasons Why You Should Use Home Roasted COFFEE**

1. Because it reaches you direct from plantation to cup—by way of the "Royal Coffee Roaster."  
2. Because I buy the best green coffee obtainable, roast and blend it to suit your tastes.  
3. Because here is true economy in buying "Fresh Roasted Coffee"—its flavor and taste is better, it is stronger and naturally goes further.  
4. Because you can buy Fresh Roasted Coffee as you require it—every week or every day as you roast several times a day. This insures full strength and aroma to the consumer and far better coffee at the same price OR LESS THAN SHELF BRANDS.  
5. Because Fresh Roasted Coffee, like fresh ground horse radish, is far better and stronger than coffee or horse radish that stands for weeks or months. First, in jobbers, store rooms; Second, in transit, and Third, on grocers' shelves before it reaches the consumer.

**DID YOU EVER GIVE THAT A THOUGHT?**  
Therefore you can see the big saving in buying Fresh Roasted Steel Cut Coffee, to say nothing of the superior drinking qualities.

IMPERIAL BLEND	GOLD BLEND	ROYAL BLEND	PLANTATION SPECIAL
Our Imperial is a rich rather heavy coffee with a strength and richness of aroma, only produced by the most careful roasting and blending.	Our Gold Blend is a rich medium coffee of excellent quality and flavor. It is produced by a blending of green coffees best adapted to procure a lighter cup quality and yet preserves the spicy aroma and rich flavor.	Our Royal is a medium coffee of very fine cup quality, good flavor and one of the most popular low priced coffees.	Our Plantation is an excellent blend and a great favorite in drinking qualities.

## SIDEWALK ORDER STARTS ROW

### Property Owners Threaten Injunction Proceedings

Injunction proceedings may be instituted by John Boose, 1928 W. Market-st and other property owners in Lima to prevent Service Director Elmer McClain from constructing sidewalks in their homes.

Friday was the last day of grace for real estate owners who had been notified to put in walks. Otherwise the service department placed their name on the list and instructed C. M. Fisher, contractor, to lay the walks.

About 100 irate householders, more or less, sought to delay matters, alleging that they had contracted with other firms to build their walks.

They were told that it was too late; that the city was ready to proceed and would do so, unless work had already been started by others.

"I will get out an injunction," Boose told McClain. "We will walk, until the court stops us," he was informed by McClain.

Another property holder threatens to arrest city workmen who attempt to construct walks along his frontage.

The service and engineering departments are standing pat.

# OWNS SLICE OF WALL STREET

John Bush, Akron, Claims Realty In Heart of Gotham

99 YEAR LEASE EXPIRED

Grant in Question is Site of Huge Sky Scrapers

AKRON — (By Associated Press) — "Just a little slice of Wall Street, that's enough for me."

The above is not the title of a popular song, "but the wording of a real claim of John L. Bush, tire builder, who lives with his wife and two children in Kenmore, a suburb of Akron.

Bush says he is a great grandson of Isaac Cox, and an heir of the latter, whom he claims, was one of New York's earliest landholders. According to Bush, about 1800 Cox was the owner of a strip of land, two miles long, in what is now the heart of lower Manhattan, including Wall Street, and totaling 1000 acres.

Bush is considering legal action to establish what he claims are his rights. DOES NOT WANT ALL "I may never get anything out of it, but you can't always tell. Mother used to tell me her share of the Cox estate would have been about . . . 1,000,000 had she ever gotten it," Bush declared.

"We may be able to establish our right to the title of the land, but I don't know whether I would want to own all of Wall Street. Just a little slice would be enough for me."

Bush's claim, he says, would include all of Wall Street, New York's

famous Trinity Church, whose property is said to be valued, at \$10,000,000, the present site of the Woolworth Building, New York postoffice, Federal Building, J. Pierpont Morgan building, Astor building, Equitable building, and others of New York's largest skyscrapers.

Cox negotiated a 99-year lease on the land, and that lease now has expired, the claimant asserted.

BELIEVES CLAIM VALID

It is Bush's belief that the lease was sold, and the property divided and sold to individual owners, but he asserted that Cox's estate should include at least a part of the 1000 acres.

Bush has written to city and county officials of New York, in an effort to ascertain the exact legal status of his claim.

According to Bush, the matter of right of title first arose about 20 years ago, when the Cox heirs were marshalled by Nisley Cox, a grandson of Isaac Cox. Nothing has been done since then, he said. Bush has four brothers living in Roan County, West Virginia.

## Memorial Day--

Once more we bow our heads and pause in respectful memory for those who gave up their lives sixty years ago that this nation should remain united.

North and South—each devout in its belief that each was right—now are happily united. The bonds of friendship grow stronger each year until today this great country is the leader in the world's civilization—in industry—in agriculture—in everything that goes to make a great nation. Let us therefore not forget to also pay reverence to those who laid down their lives at Chateau Thierry and the Marne—that this country and the freedom of the world may be sustained.

# LOOKS LIKE 1920 RECORDS WILL STAND

MAJOR HITTERS MUST TRAVEL IF THEY BREAK 'EM—JACK HAS NEW WAY OF TRAINING—OTHER SPORT GOSSIP

Hitters of the major leagues have started off at a faster clip than was the case last year. However, there are few baseball men who believe that the season will be as productive of new records as was that of 1920. A glance at the fourteen new marks hung up by players of the younger circuit last season reveals the big task ahead if this year is to surpass the "season of records."

Babe Ruth and George Sisler vied last summer in baseball conventionality and precedent and only marvelous work by either will improve those marks, altho Ruth today is one week ahead of his home run mark. Ruth's records set in 1920 were for total runs in a season, 153; extra base hits, 99; extra bases on long hits, 216; home runs, 54, and bases on balls 148.

Sisler's record-breaking accomplishments were the scoring of 257 base hits, 399 total bases and 171 singles, while the St. Louis star tied the previous record of 140 assists at first base.

Del Pratt, then of the Yankees, now of the Red Sox, tied previous marks by accepting 16 chances in a single game at second base and making 11 assists in one game. The unassisted triple play of Bill Wambach was the first recorded in a world's series contest. Oscar Vitt, Red Sox third baseman, made a record fielding performance with an average of .985. Dave Bancroft, of the Giants made 598 assists, a new

### DEMPSEY OFFERS SOMETHING UNIQUE

Back in the old days of glove fighting, heavyweight champions and contenders for the title trained under the expert direction of a veteran conditioner of fighting men—a trainer usually grey with years of experience.

The late Billy Delaney, a San Francisco veteran, was one of the old time trainers of heavyweight champions. James J. Jeffries, Jack Johnson and James J. Corbett were conditioned for championship battles under his expert direction. Tim Mc-

Grath, also of San Francisco, is another of the old time handlers, who directed the training activities of Tom Sharkey. Later came Jimmy DeForest of Long Branch, N. J., who had charge of Jack Dempsey's camp when he won the World's championship from Jess Willard at Toledo.

Two years ago, But a new order of things has come into the career of Dempsey in his preparation for his coming championship contest with Georges Carpentier. The champion is training himself, under the watchful eyes of Jack Kearns, his manager, and Ted-

dy Hayes, a pal, who performs the secretarial duties for the heavy-weight champion.

From sunup until bed time, Hayes is Dempsey's constant companion. When the champion arises at 7 o'clock for his daily spin on the roads, Hayes, with the two Belgian police, does his rounds along the

examination workouts in the afternoon. Hayes is at the champion's side holding a watch to time his bag punching, shadow boxing and sessions with the sand bag and gloves.

Western teams appear in the east. Major league baseball clubs after the general "shift" of Thursday, started Friday on the new series of contests which will mark the first appearance of the American League's Western clubs on the east, while the eastern teams of the National League are touring the west.

The invasions of the east by the west in the National League and of the west by the east in the American League were featured mainly by the excellent showing of the Pittsburgh club, which lost only three games and returned home yesterday securely ensconced in the leading position.

Pittsburgh's showing has made the club a pronounced pennant favorite at this early date.

As usual, in the recent series, the home clubs were more successful.

CARPENTIER BECOMING FIEND FOR WORK. Georges Carpentier so much enjoyed his four rounds of ring work Thursday that another session with sparring partners was prescribed for him Friday.

In his workouts with Italian Joe Gans and Joe Jeannette, he was the smiling, bantering, dancing whirlwind—in, then out, trying all his ring winning, and when it was over he said he felt better than at any

## DIRT TRACK CARD TO BE STAGED

Efforts are being made to revive dirt track auto racing in the middle west, and one of the first meets to be staged will be held here, Saturday, June 4, according to H. W. Allis, manager of the Motor Speed Association, who was in Lima Thursday afternoon. The event will be held at the Lima Driving park.

The main event of the card will be a 50-mile race in which 19 drivers are already entered, Allis said. The manager declares, because of fake races, dirt track events have not been received in the best of favor in this section of the country, and it is to get away from this that the new association was formed.

Jimmie Thomas, Chance Miller, Phil Koehler, Bob Wright, Harry Smead, Jimmy Warren, Ham Robertson, Charley Vischer and other drivers are expected to participate in the local event, Allis said.

## FAR WEST MAY COP INTERCOLLEGIATE

LAURELS FROM EAST WHEN THEY MEET

CAMBRIDGE, Mass. — Will the Far West this year break into the magic circle of intercollegiate track competition with University of California and Leland Stanford both coming from California bent on making a clean up? Or will the old intercollegiate "rag" stay in the East where its winners in that long period of time have been confined to five states, New York, New Jersey,

Pennsylvania, Massachusetts and Connecticut? That's what track enthusiasts are discussing with the hour for the forty-fifth annual meet at hand.

California, according to Walter Christie, its astute track coach, can take the measure of any other college in America in a dual meet. Both Cornell and Yale already have turned down overtures from the Coast-ers for meets on the latter's long journey to Cambridge. Dink Templeton, an intercollegiate point getter last year, is Stanford's coach and

## HIT 'EM ALL

## ATHLETES GATHERED FOR MEET

CAMBRIDGE, Mass.—The of the college athletic world—700 men whose names are in the annals of field and track—gathered within the gray walls of Harvard's great stadium here for the 45th annual intercollegiate track and champion.

Athletes from 29 colleges entered. California's team, came here a week ago, to get acclimated, has been training at and appeared in fine condition.

Of the big entry list, the name of the big entry, Syracuse sprinter Edward O. Gourdin, crack flyer, stood out as the best contender in their division.

LANGDON IS FAVORITE. Langdon, of Yale, stood out strong favorite in the high jump, but Muller, of California, reckon with him, however, and Brown, of Dartmouth, and Katt of Cornell. Muller recently jumped six feet 3 1-2 inches.

In the mile run Irish, of Cornell, and Campbell, of Yale, look the Harvard men claimed that Gourdin was unbeatable in broad jump.

Halsey, of Princeton, was expected to make a good showing in shot put. Majors of California Tolbert, of Harvard, are also peting in this event.

## LIONS-ROTARIA GAME POSTPONED

Because the weather looked upon the city and started to Thursday's game between the Lions and the Rotarians was postponed. It was announced, however, weather permitting, these two teams will battle each other at Murphy lot Friday afternoon at 4 o'clock.

Just which team will set the in the loop will be decided, game. The team which walks with honors will have a grip on top rung of the league ladder.

The Rotarians management that Rohe, local hurler of repute, was to have gone to the Th league this season, is slated to for the Rotarians.

**POLICE COMPLAIN OF LACK OF COOPERATION IN A FORGERY CASE**  
Police Friday complained because of lack of cooperation on the part of certain Lima merchants, in aiding the department to capture a check forger who was working in this city Thursday.  
The man, who is described as being about 30 years old, weighing 165 pounds and dressed in a dark suit, entered a local clothing store and after purchasing a piece of wearing apparel is alleged to have given the clerk a forged check. A few moments later the clerk became suspicious and ran after the man. Catching him, the clerk, demanded a cash payment for the goods. The man made the payment and took back the check.  
Shortly afterwards, he endeavored to cash an alleged forged check on the Lima Furniture company and succeeded in getting money on one from Real & Reel.  
"The police can't do everything," D. Oak Sergeant Eberie declared, "in this instance, cooperation on the part of dealers would have made this man's arrest possible."

SHORT SHAVINGS

An English temperance lecturer displayed to his audience two geraniums. The first had been watered in the usual way. The other had been dosed with alcohol and its foliage was shriveled and sparse, its stem twisted and its vitality decayed.

"Now, ladies and gentlemen," cried the lecturer, "what can you say to a demonstration like that?" "It's all right," said a shabby man in the front row, "and if I were a geranium I'd stick to water; but, you see, I ain't a geranium."

The pastor was interrogating the pride of the family. "And do you always say your prayers before you go to bed?" "Yes, sir," replied Johnnie.

"And what are the things you pray for?" pursued the good man. "Well," responded Johnnie, thoughtfully, "mostly that pa won't find out what I've been doin' during Monarch Pineapples in large cans, whole slices, \$4.25 per dozen cans, at Piper's.

The judge had pronounced him "mentally irresponsible," and he was no wiser guest of the state. He wandered about the grounds, viewing his new surroundings with much interest. Finally he approached one of the guards.

"What time is it?" he asked.

The guard glanced up at the clock on top of the main building. "Eleven-thirty," he said. "But that clock can't be right," observed the inquirer.

The man walked on, and soon he met another guard.

"Say, would you mind telling me the time?" he asked.

"Sure," said the guard, looking

up at the same clock. "It's just past eleven-thirty."

"But that clock isn't right, is it?" pursued the man who wanted to know.

"Why, sure it is," said the guard. The guest scratched his head reflectively.

"Well, if it's right—what's it doing here?" he demanded.

SOME men like the soft kid feeling of kangaroo leather. Your favorite shape in a Walk-Over can be had in black and brown top-grade kangaroo leather. It gives shoes a certain refinement. It is as soft as kid and does not rough up.

More men buy kangaroo since they have been able to get it in the Walk-Over style shapes.
